

45 *Tamarix* spp. Temporarily Flooded Shrubland
Tamarisk spp. Temporarily Flooded Shrubland

Associations:

-*Tamarix* spp. Temporarily Flooded Shrubland

Common species:

Tamarix ramosissima
Salix exigua
Baccharis emoryi
Populus fremontii
Elaeagnus angustifolia

Project Specifics:

Frequency = 128total polygons
10 polygons ZION, 118 polygons Environs
Area = 199 total acres
3 acres ZION, 199 acres Environs
Average Size = 2 acres

Photo Signature Example

Description:

This non-native map class was found primarily outside of ZION along the Virgin River floodplain. Tamarisk tended to form dense stands that were characterized with a dark green signature. Other floodplain and riparian map classes tended to intermingle with this type. In the Park this type was limited to some isolated stands in the South due to an active control and eradication program.
